

[SYNTHETIC SAMPLE] Fictional record generated for the DELPHi prototype demo. Names, institutions, and statements are invented; the layout imitates a generic field-medical format. Not a real document and not derived from any real record.

[CONFERENCE REFERENCE] The meeting named above is a real, publicly announced scientific congress and is used here only as the setting of this fictional record. No session content, abstract, poster, or presented data from that meeting is reproduced or paraphrased; every person and conversation below is invented.

Congress Attendance Report — American Epilepsy Society Annual Meeting (AES) 2023

Meeting period: December 2023 | Author: Yuki Tanabe

Scope: unsolicited conversations held on-site. Session content and presented data are deliberately not reproduced here.

Conversation — Viraj Corliss, MD (Lakeshore Neurological Care Center)

The conversation happened while waiting for a session room to clear. Mentioned a review that circulated on the service but did not raise any specific finding. No product discussion this time. Asked about safety and confirmed nothing to report.

Conversation — Xiomara Wetherby, MD (Northbrook Neurology Institute)

Introduced by a colleague from the same region and talked for a few minutes. Referral patterns into this clinic have changed, and the surgical workup list is a bigger share than it was. Coverage paperwork is handled by one person here, which came up as a general frustration. Referenced a session summary from a colleague in passing.

Conversation — Kiara Thistlewood, MD (Thornfield Regional Epilepsy Program)

We spoke standing near the exhibit aisles, briefly. Referenced a session summary from a colleague in passing. Closed there — no materials requested. Titration habits came up in general terms; no specifics were discussed and none were offered.

Conversation — Eloise Eversholt, MD (Quarry Hill Epilepsy Center)

We spoke standing near the exhibit aisles, briefly. The travel schedule this year came up, and little else. Talked through the surgical workup list in general terms, without any specific case. Mentioned a session summary from a colleague but did not raise any specific finding.

Conversation — Pallavi Wainwright, MD (Bluestem Comprehensive Epilepsy Clinic)

A short exchange over the coffee queue. Titration habits came up in general terms; no specifics were discussed and none were offered. Referral patterns into this clinic have changed, and the older half of the panel is a bigger share than it was.

Conversation — Priya Raghavan, MD (North Star Neurology)

The conversation happened while waiting for a session room to clear. Described how the older half of the panel is triaged now compared with before. Talked through the surgical workup list in general terms, without any specific case.

Follow-ups have been logged in the interaction system.
